LOWER COSTS AND IMPROVE EFFICIENCY

RE-U-ZIP Reusable Dust Barrier Zipper

With an innovative adhesive hook and loop design, our dust barrier entry zipper is simple to install, adjust, remove and reuse. Made from high-quality durable materials, it offers an eco-friendly solution that improves project efficiency and saves you money.

To reduce the potential for liability and job site tampering, the system incorporates a unique lockable design that allows for a chain of custody to be established.

Additionally, the patented design is jam-resistant and requires no special tools to install.

Key Benefits and Features:

- **High-Quality Nylon 7 Gage Reusable Zipper (2"x80")**
- **Durable, Lockable and Jam Resistant**
- **Easy to Install with No Special Tools Required**
- **Eco-Friendly**
- **Customizable Info Tag for Easy Tracking**
- **Machine Washable**
- **Easy to Roll Up and Store**
- **Reusable**

RE-U-ZIP +Magnetic Self-Closing Entry Strip

The +Magnetic Self-Closing Barrier Entry takes the cost-effective convenience of the zippered model and elevates it to the next level.

Using the RE-U-ZIP mounting strips, you can turn any plastic barrier into a hands-free, self-closing magnetic entryway in minutes.

This reusable and durable magnetic, hands-free barrier entry combines heavy duty magnets with a compact design to create a product that is strong enough to get the job done but small enough to be easily transported and stored.

Key Benefits and Features:

- **Durable Design Built for the Construction Industry**
- **Easy to Install with No Poles or Special Tools Required**
- **Customizable Info Tag for Easy Tracking**
- **Convenient and Compact**
- **Easy to Fold Up and Store**
- **Interchangeable with the RE-U-ZIP Zipper**
- **Reusable**
- **Cost-Effective**

RE-U-ZIP + MAGNETIC ENTRY STRIP

OLD WAYS WON'T OPEN NEW DOORS

RE-U-ZIP +Magnetic Entry Strip

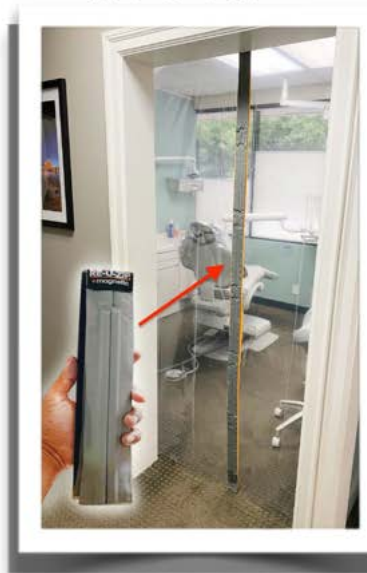

Simple install of a self-closing magnetic entry in any plastic barrier in under 2 mins!

Other Brands Pre-Fabricated Doors

Other brands use expensive prefabricated doors that also require costly poles. There are also sizing constraints with pre-fabricated magnetic doors. Setup is difficult and can take over 20 mins.
