Mr Garry Carroll
Restore Solutions Pty Ltd
by email: garry@restoresolutions.com.au

Dear Garry,

**DUE DILIGENCE CHECK AND RCM COMPLIANCE CERTIFICATE FOR
“TROTEC” DEHUMIDIFIERS TTK RANGE**

I am pleased to advise that the due diligence check has been completed for the above article as requested and I here attach the RCM certificate of compliance that we have issued for the product.

The documents supplied are adequate to demonstrate compliance of the product to the relevant Australian Standards for electrical safety and EMC. Please note that no physical or electrical tests have been conducted as part of this check procedure. The checks involved a desktop audit of supplied documents only.

We have also registered your company as a responsible supplier and registered the product on the EESS database. Please note that the product must be marked with the RCM mark to denote compliance with the legislation.

Now that we have completed this project, I also attach our tax invoice for your payment.

Should you require any further information or if I can assist you in any way, please feel free to contact me and I thank you for entrusting this matter to QEC Global.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'M. Denham', with a horizontal line extending to the right.

Marty Denham
MANAGING DIRECTOR
